

## DAILY THOUGHTS FOR YOU

By James G. Gifford

### WHAT HE SAID.

I took my boy to a picture show.  
A trick I'll never do again.  
The things he said and the things he did.  
They make me groan and writhe in pain.  
"Say, Pop, when will the play begin?  
An' what's it goin' to be about?  
Why can't I talk, I'd like to know?  
Why does that fat old man walk out?"

"Oh, papa, ain't that picture swell?  
Oh, say! buy me a horse like that.  
Why can't I stand up on the seat?  
Now tell me, why ain't Chaplin fat?  
Why does the picture move so fast?  
Oh, papa, quick! Look! Just look!  
The man has kissed that pretty girl.  
Just like I saw you kiss our cook."

"I can't keep quiet all the time.  
Oh my! just watch that couple fight.  
They're amasing all the dishes, too.  
Like you and ma the other night.  
Why is that fat man's coat so short?  
He's got some cards; they're goin' to play!  
I wonder if they'll stick for hours.  
Like you do when ma's gone away?"

"What makes the music sound so low?  
Just watch that woman comb her hair!  
Why don't she take it off like ma.  
And hang it on the nearest chair?  
What makes the moving pictures move?  
What makes him stretch his face that way?  
Why don't you answer all I ask?  
Why don't you buy a picture play?"

### Engineer Will Address Lions

At the regular weekly luncheon of the Memphis Lions' club, to be held at Hotel Gayoso Tuesday noon, W. B. Harrison, hydraulic engineer, connected with the Memphis artesian water department, will be the principal speaker. No subject has been announced, but it is expected that Mr. Harrison will talk on plans of the water department for the coming year. Besides the luncheon, a musical program will be arranged.

### Wet Weather Halts Engineering Work

Wet weather is playing havoc with the work of the city engineering department, according to City Engineer Will Fowler.

The department, according to Fowler, has much work which can not be finished in the present weather. Chief among these open projects is the work of placing a surface on Calhoun avenue. It is being surfaced with asphalt, which requires a dry base. According to Fowler, it will require several days after the rains cease to sufficiently dry the street to permit asphalt to be put down satisfactorily.

### BRICKLAYERS' UNION WILL NOT ASK RAISE

Memphis Bricklayers' Union No. 1 has decided officially not to ask for another raise in the wage scale, as was their intention some time ago. This action follows several letters sent out by E. W. G. Meers, of the Memphis builders' exchange, who stated the men to reconsider their action in view of the downward trend of prices and wages. Officials of the union claim that the change of position is made as a result of advice received from the national organization.

Vice-President Bert Childs, of the national organization, is in Memphis, and it is understood he has made visits to most of the contractors' organizations, telling them the men will not press their demands at this time. The opinion is expressed that this is the start of a general easing of the labor situation in Memphis. The present scale is \$1.25 an hour.
